SCAN → PORTFOLIO

SUMMARY

Dual-track builder who ships production mobile software and tests its security. The developer behind a Flutter superapp used daily by 300+ staff across 15 branches, eJPT-certified, and comfortable both writing the code and probing it. Computer Engineering senior at KFUPM, currently building a Flutter app freelance.

EXPERIENCE

Freelance Mobile Developer Jun 2026 – Present
Independent Remote

- Building a cross-platform Flutter application end-to-end — architecture, state management, REST/Supabase data layer, and release preparation for Google Play and the App Store.
- Sole developer on the project: owns technical decisions, testing, and delivery.

System Developer May 2026 – Present
H. M. Al Rugaib & Sons Trading Co. Khobar · Part-time

- Built the quotations feature that writes directly into Microsoft Dynamics 365 production.
- Shipped a standalone price-tag package connected via API so showroom staff print tags on the spot, saving hours per employee each month.
- Owned the Tabby payment-platform integration with Dynamics 365 end-to-end — sandbox to production, coordinating with Tabby's team.
- Ran end-to-end ERP payment testing with prioritized issue reports.

System Developer Intern Jan – May 2026
H. M. Al Rugaib & Sons Trading Co. Khobar

- Worked across a multi-module Flutter app (orders, catalogs, analytics, bonus tracking); cut catalog loads from 10–15s to under 3s on a 160,000-item catalog.
- Grew the internal app from a single showroom tool into a company-wide superapp used daily by 300+ staff across 15 branches.
- Helped design role-based access control (RBAC) mapped to the company hierarchy; investigated and resolved data-integrity issues.
- Owned Dynamics 365 sandbox/UAT feature testing before releases; validated every payment method and reconciled transactions between app and ERP.

Logistics & Operations Team Lead Sep 2025 – Present
KFUPM Cybersecurity Club Dhahran

- Leads logistics and operations for workshops, competitions, and events; automates routine tasks with Python.

Lab Assistant Jan – Aug 2025
KFUPM College of Computing & Mathematics Dhahran

- Built a Python/Tkinter scheduling app with conflict detection that cut manual errors 40%; Power Automate/Excel feedback delivery turned a 2-hour task into 15 minutes.

PROJECTS

AlRugaib Sales Platform MOBILE · PRODUCTION	KFUPM CTF — 3rd Place SECURITY · TEAM LEAD
Production Flutter/Dart superapp used company-wide across 15 branches by 300+ staff.	Team lead tackling web vulnerabilities under time pressure; Wireshark, Metasploit, Nmap.

Freelance Flutter App MOBILE · IN PROGRESS	Recon Automation Toolkit SECURITY
Cross-platform Flutter app in active development, targeting Google Play and the App Store.	Python tooling automating Nmap scan workflows, flagging exposed public files and directories on practice targets.

Vehicle classification with KNN/SVM/MLP over 19 features;
heart-disease prediction classifier.

TECHNICAL SKILLS

Security	Web penetration testing, vulnerability assessment, reconnaissance & automation, OWASP fundamentals, RBAC, risk assessment · Nmap, Metasploit, Wireshark, Scapy, Burp Suite, Packet Tracer
Mobile / Dev	Flutter, Dart, state management, REST APIs, Supabase
Languages	Python (PCEP), Bash, Dart, Java, C
Tools	Microsoft Dynamics 365, Postman, Power Automate, Git/GitHub, Railway, Vercel, Linux/Unix

EDUCATION

B.S. Computer Engineering	Expected December 2026
King Fahd University of Petroleum & Minerals (KFUPM), Dhahran	GPA 3.27 / 4.00 · Second Honors
- QS World University Rankings 2026: #63 worldwide, 1st in the Arab region - Relevant coursework: Computer & Network Security · Operating Systems · Mobile Computing & OS · Data Structures & Algorithms	

CERTIFICATIONS

- eJPT — INE Junior Penetration Tester — earned Jan 2025
- eWPTX — in progress
- PCEP — Certified Entry-Level Python Programmer
- CompTIA Security+, Network+, A+, Cisco CCNA — coursework complete, exams pending

LANGUAGES

Arabic (native) · English (full professional — IELTS 6.5) · French & Japanese (elementary)
